It houses the longest . . .

Stanford University,

official [Index] name LELAND STANFORD JUNIOR UNIVERSITY, private coeducational institution of higher learning at Palo Alto, Calif., U.S. The **university** was founded in 1885 and opened in 1891 by railroad magnate Leland [Index] **Stanford** and his wife, Jane (née Lathrop), and was dedicated to their deceased only child, Leland, Jr. The doors were opened in 1891 to 559 students. The **university** campus consists largely of **Stanford's** former Palo Alto farm. The founders also established an endowment of \$21,000,000. The buildings, conceived by Frederick Law [Index] Olmsted, the creator of Central Park in New York City, are of soft buff sandstone in a style similar to the old California mission architecture, being long and low with wide colonnades, open arches, and red-tiled roofs.

Stanford maintains branch campuses in France, Italy, Germany, Austria, and England. About half of its undergraduates study overseas at them for six-month periods. Advanced study centres are maintained in Japan, Taiwan, and several other countries. The departments of the **university** are organized into schools of law, medicine, education, engineering, business, earth sciences, and humanities and sciences.

In 1921 the Food Research Institute of **Stanford University** was organized. The [Index] Hoover Institution on War, Revolution, and Peace, founded by **Stanford** alumnus Herbert Hoover during World War I, contains more than 1,000,000 printed and manuscript items dealing with 20th-century international relations. The [Index] **Stanford** Linear Accelerator Center was established in 1961 when Congress appropriated \$114,000,000 for construction on the campus of an accelerator 2 miles long under contract with the Atomic Energy Commission. The **Stanford** Medical Center, completed on the campus in 1959, now has more than 550 beds. The Hopkins Marine Station is maintained by the **University** at Pacific Grove on the Bay of Monterey.
